

PACKAGING EXPERTS

FLEXIBLE PACKAGING OPTIONS

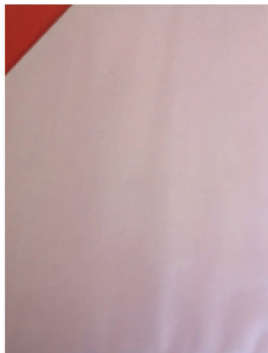

Multi-Layer Pouches

w/ Lip & Tape
w/ Metal Pull-Tab Zip
w/ Front Pocket
Clear and Anti-Static
Double Layer
Triple Layer

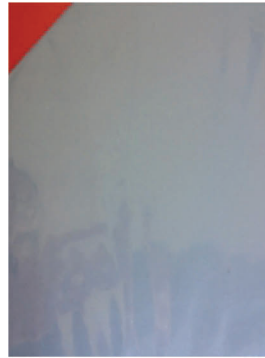

Barrier Films

MVTR and Oxygen Barrier
Protective Packaging
Mil Spec
Static Control
Transparent and Opaque
Vacuum Pak
Biohazard

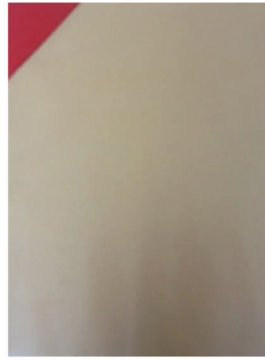

Poly

LDPE / LLDPE / Polypropylene
Clear Poly (Industrial and FDA grades)
Autoclavable
Anti Static Poly / Black Conductive
UVI / VCI Blends
High Density Poly
Custom Colors / Print
.0015 thru .10

Static Control

Static Shielding
Pink / Clear A/S
Black Conductive
EMI / Static Shield
Multi-Layer Pouches

Nylon

Mono-Extruded (Clear / A/S)
Co-Extruded
Biaxially Oriented
Food Grade

Cleanroom, Class 100

Industries Served:
Medical
Pharmaceutical
Bio-Pharmaceutical
Semi-Conductor
Electronics
Aerospace/Defense

Due to popular request, we have redesigned our equipment to do **custom placement of tape and VelcroTABS** rather than having a full tape strip across the top or side of a bag, we can now place intermittent "tape tabs" for strategic closure.

By eliminating the need for a full tape strip, we have significantly cut costs where a peel and stick tape closure is required. This is especially beneficial for more expensive products like the white foam bag pictured here.
