

Triple Wall

Light weight solution

● ● Triple-wall corrugated boxes can help lower your freight costs by significantly reducing the weight of your packaging.

Compare a 48" triple-wall box weighing 84 lbs vs 213 lbs for a plywood box!

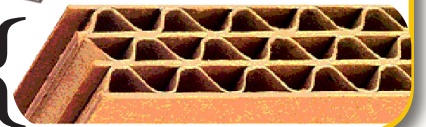

Added features:

- Skids for pallet jacks or forklifts
- Heavy duty 1.5" wood deck
- Internal foam inserts
- Fixed closing straps and buckles

crush rating 600lbs
